SKILLS

Programming Language

Arduino, C, C++, Javascript, Java, Python,
Assembly

Framework & Library

React.js, Bootstrap, Next.js, Redux,Vue.js,

Database

MYSQL

ACHIEVEMENTS

6th place, Rescue Robot Competition,TechHunt, 2017

PROJECTS

Four Legged Walking Robot

This robot can walk on a plain surface. I have done the simulation process on v-rep & for the coding purpose I have used java programming language.

Rescue Robot

The goal of this project was to make a robot that can move and can grab an object. We can use this robot in a rescue mission to remove a threat object. And we can control this robot remotely.

Garden irrigation systems

The goal of this project was to build an automatic irrigation system for a small garden. This system was build based on an Arduino.

ONLINE CERTIFICATE

***Meta Front-End Developer(Coursera)
React + Redux (Sololearn)***
